

Lab Technician / Chemical Technician – Focus on Biotechnology (m/f/d)

Location: Grambach, near Graz, Austria

Employment Type: Full-time (40 hours/week)

Start Date: As soon as possible

About VALIDOGEN

VALIDOGEN GmbH is a leading research and development company in the field of recombinant protein expression with over 15 years of expertise. Our proprietary **UNLOCK PICHIA®** expression platform is based on *Pichia pastoris* and is used to develop customized Pichia protein expression strains and economically attractive production processes for a wide range of industries, including biopharmaceuticals, food & feed, industrial biotechnology, and diagnostics. As part of the KonValue Group, VALIDOGEN is dedicated to delivering innovative and safe production solutions tailored to specific market needs.

Your Responsibilities

As part of our laboratory team, you will support the development and implementation of biotechnological processes for recombinant protein production. Key tasks include:

- Performing microbiological and molecular biology techniques (e.g., cloning, transformation, screening)
 - Conducting protein analytical methods (e.g., SDS-PAGE, Western blot)
 - Supporting downstream processing of recombinant proteins
 - Documenting and analyzing experimental data
-

Your Profile

- Completed education in chemical, biochemical or molecular biology fields (e.g., chemical laboratory technician, HTL for chemistry/chemical engineering)
 - Hands-on laboratory experience in biotechnology or molecular biology is an advantage
 - Strong technical understanding and a precise, independent working style
 - Solid IT skills (MS Office)
 - High sense of responsibility and team spirit
 - Interest in innovative developments in protein biotechnology
-

What We Offer

- An opportunity to contribute to an internationally recognized company in the field of protein expression
 - A diverse role with a high degree of autonomy
 - Comprehensive onboarding and close support – ideal also for motivated entry-level candidates
 - A dynamic and collaborative team environment
-

Remuneration

The minimum annual gross salary for this full-time position is **€ 35,000** (40 hours/week) as defined by the applicable collective agreement. A **market-based overpayment** is offered depending on qualifications and professional experience.

Application

We look forward to receiving your detailed application!
